

## **In the year of Cock must "opens out a tail"!**

Another year walked up to end, which confirmed professional level of magazine. We did not change rates, orientation of publications, but our editorial collegiums changed almost fully. And it is not surprisingly, because, we try, at first, constantly to engage in the rotary press of editorial collegiums of magazine and rejuvenation of its composition. And, secondly, we are search new mechanisms and ideas on the improvement of our magazine. However, than is longer kept status of moved at the Volodymyr Dahl East Ukrainian National university, which is located in Severodonetsk, that is quicker lost a dream to keep in composition an editorial collegiums at its prestige professional potential, which created a magazine on that high professional level and formed its image at the Ukrainian educational and scientific market of knowledge. And it is can not disturbs, because it is the known names of persons-workers, whom fold the elite of science and education in modern Ukraine. All these professionals, forced now to search the "best life" in other high schools or abandon a country, because expectations of returning on the "circles" already passed in then phase, when to expect some help there is not sense, even is not in a material aspects. Even needs say more, that year by years of stay in quality of migrants, only led to effectiveness of pessimistic utterance, that on the right rescue of "drowning in hands drowning".

From this reason on the eve of a 2017 New Year - year of Fiery Cock, "opens out the tail" and begin start to master new fields of the activity, technology of work, mechanisms and instruments of communications, opening of informative space, to answer the main principles on positions of which is based the activity of magazine. It is a means: is a permanent capture and submission of world methodological and scientific tops with the personal improvisation and unstop self-perfection!

We are wishing to our authors, readers, reviewers, opponents, all friends and supporters of our magazine to be the same active, to "flame" on the field of leading to actuality and necessity of introduction the ideas and researches on the modern stage of socio-economic development of our state and region. And also we wishing to have a desire to fly and be winners in all scientific "discussions", but also find compromises, however despite your theories and ideas". It is to continue to develop the "educational and scientific" house, for the sake of prosperity, high culture of our children, grandchildren and next generation, whom must absorb for themselves that all, what was better in the year that it was already done and must not get lost and drop off. We wish happiness and welfare to your families! Peace and "complete cup" of life for all of us!

All we will have very well, because we love our state and hope that our attempts to do the best life in Ukraine - will bring the good result to 2017 year! So "opens out a tail" and become to work, remembering that Cock wakes up early, and in obedience to folk wisdom: "Who gets up early – them God is give and help!

Sheaf-Editor of the magazine  
"Time Description of Economic Reform"
