

We are transformed!

Already began a 2018 New Year and we are hurry to reveal our readers, that began the process of modernization and transformation the magazine, because our edition attained enough high confession (for the level of indexation) in most scientifically and metrical bases, where it is presented. First, already we are handed all necessary applications to passing the certain levels of requirements with purpose to coming in the scientifically and metrical base of "Web of Science". And for this idea, secondly, we are extending composition of editorial college. On today's time already confirmed the consent to take part in process magazine is very famous scientists, leaders of educational and academic establishments, scientific programs from Indonesia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan and we are communicated with the scientists from other countries. From reason, that now to scientific examination of the given articles to the magazine it will be attracted the more wide pricks scientists and representatives of different international scientific schools, therefore is thirdly, there are main priorities will be given for the publication of the articles, what are prepared by English.

It was considered that such transformation steps will be useful not only to the increase of rating and international confession of magazine, but also it is will useful for all our authors too. Therefore we are very thankful all our supporters, authors and opponents, who supported and sent our magazine in a those direction and to those heights, that we already attained and try yet to overmaster. It is a not simple step, because in our country is very hardly to found a similar magazine which has status of moved and founded near to the area of military operations (including founder of its magazine), and however nevertheless abandons, hopes, persuasions, ambitions constantly transformed and have a confidence, that together with our authors, readers and new editorial college we will be able to take a part the most prestige and acknowledged in our country scientifically and metrical bases! Together with all of you - we are large force and powerful scientific potential, which does not give us possibility to calm down on attained. And to forces us to move forward, to changing and transforming on this way the all on the best and harmonized to the tendencies, what are acknowledged in a world scientific association. So, we wish all us to have a creative animation and new achievements.

Sheaf-Editor of the magazine

"Time Description of Economic Reform"
