

New prospects of partnership and development of educational activity

The realizable inauguration of new president, country and its citizens must be sure that the prospects of euro integration and democratization remain unchanging. Although after the expected elections in Verkhovna Rada, possibly some accents will be carried in organization of scientific and educative activity, receipt of graduate degrees, ranks and all that. As is it talked: "Will live - will see"!

There is not a doubt, that we are expected, reforms and not only in universal initial education but also in higher school too. Release of magazine, from the side, and high school, which are the founders of magazine, now, plan within the framework of mutually beneficial partnership on the field of educational, scientific development in industry of economy to put right and revise agreements about good-neighborliness's with European and world higher schools, especially with those the representatives of which are members of our editorial board. The purpose of such collaboration is directed, foremost, on upgrading of the articles, which are published; improvement; to the mechanism of the blind criticizing and included in the scientifically-metrical bases of Scopus, Web of Science and other new establishments which constantly appear in the world acknowledged scientific rating; research of priority scientific work assignments, especially in industry of economic and humanistic and between disciplinary aspects of actual world scientific developments. In this plan of editorial board worth-while experiment of different countries, because requirements to printing in most editions on the whole similar, however there is some specific which determines certain status and presence them in the greatest quarts of world scientifically-metrical bases.

The editorial of magazine is ready to the permanent improvements, transformations and perceives the newest changes with a prospect to answer all world scientific calls. We are inviting all our readers, authors, opponents. supporters to general creative labor and together with us to attain the greatest scientific confession in all areas of activity there are not only in Ukraine, but also after its limits. We are wish to all the animation, inspiration, to be devoted aims and arrive at the greatest stages of scientific and personal confession. And let coming sultry summer all of us does not budded in it. We are wish comfort summer vacation in all its displays and kind emotions.
